# Dedicate a heritage apple tree at Bath

DELIVER TO: Native Woodland Ltd. 26 Agincourt Square, Monmouth NP25 3BT; Copy by Fax to 0843 22 77 235

It is possible for families to dedicate a heritage apple tree as part of the orchard restoration project. The variety of apple tree will be selected from a heritage list and each will be planted 6m apart.

The price for dedicating a tree is £350, which covers the purchase of the tree, preparing the ground for the planting, stake, guard and mulching, a horticultural plaque showing the variety of tree, month and year of planting and the name, year of birth and year of death of the deceased, as well as attendance and administration costs and tree maintenance. During the planting season (November-March) you are welcome to come along and get involved. At other times of the year you will be dedicating a tree that has already been planted.

Please note that if you wish to scatter ashes next to your tree you will need to complete a separate ashes scattering form. This is because all disposals of remains at the burial ground must be recorded in our register. Ashes can only be scattered above ground because below ground is legally regarded as an 'Interment'. The orchard is outside the burial ground perimeter and we do not have permission for 'Interments' in this area.

## Please attach:

- payment for the dedicated tree £350 payable to Native Woodland Ltd
- an ashes scattering form if ashes scattering will take place

Name to go on the tree label	Year of Birth	Year of Death

## Signature of applicant
